Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1335594
Hi,

So in 1.11.0, when you add a new compute profile, or edit an existing one.

If you add a volume, the "Bootable" checkbox cannot be clicked.

In fact, if you edit an existing one, and click the checkbox, the checkbox will be unchecked, and then it cannot be checked anymore.

I could fix this temporarily, by manually editing the HTML on the rendered GUI page, and then when I submit, the JSON request contained the "bootable" flag.
