

## Packaging - Bug #15462

### RHEL 7 provided rubygem-ruby-libvirt breaks proxy with libvirt

06/20/2016 03:49 AM - Dominic Cleal

<b>Status:</b> Rejected	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> RPMs	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b> 1.12.0
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/theforeman/smart-proxy/pull/435">https://github.com/theforeman/smart-proxy/pull/435</a>	
<b>Description</b>	
<a href="https://bugzilla.redhat.com/show_bug.cgi?id=1347551">https://bugzilla.redhat.com/show_bug.cgi?id=1347551</a> requests a newer version of rubygem-ruby-libvirt for EPEL7, else we could pull the package update into foreman-packaging.	
With the new native libvirt provider smart proxy shows the following error when querying /dhcp/192.168.122.0 on RHEL 7.2	
undefined method `dhcp_leases' for #<Libvirt::Network:0x0000000321b990>	
RHEL 7 ships with ruby-libvirt 0.4.0 . This version does not support dhcp_leases for the network object. When I install ruby-libvirt-0.6.0 directly via rubygems, smart proxy works fine.	
We need to either	
<ul style="list-style-type: none"><li>- document this behaviour (which obviously does not fix the issue)</li><li>- package a newer rubygem-ruby-libvirt</li></ul>

#### History

##### #1 - 06/20/2016 03:49 AM - Dominic Cleal

- Copied from Bug #15434: RHEL 7 provided rubygem-ruby-libvirt breaks proxy with libvirt added

##### #2 - 07/04/2016 10:48 AM - Dominic Cleal

- translation missing: en.field\_release changed from 136 to 161

##### #3 - 07/22/2016 09:11 AM - Dominic Cleal

- translation missing: en.field\_release changed from 161 to 175

##### #4 - 07/29/2016 03:21 AM - Dominic Cleal

- Status changed from New to Rejected

- translation missing: en.field\_release deleted (175)

Compatible version is now available in EPEL7 testing, so I won't add this to our repos.

Please help test and add karma to <https://bodhi.fedoraproject.org/updates/FEDORA-EPEL-2016-65343dc650> after installing with yum upgrade --enablerepo=epel-testing rubygem-ruby-libvirt
