

Foreman - Bug #15464

Pagelets should be keyed by the partial they appear on

06/20/2016 06:18 AM - Shimon Shtein

Status: Closed	
Priority: Normal	
Assignee: Ondřej Pražák	
Category: Plugin integration	
Target version: 1.13.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/3608	
Description	
Now the key is " <code>#{controller}/#{action}</code> " which forces people that want to use this extension point to know the actions the partial is used in.	
For example: assume a pagelet placeholder in <code>hosts/_form.html.erb</code> :	
<pre>render_pagelets_for(:main_tab_fields, :host => @host, :form => f)</pre>	
In order to add content to this pagelet, you have to register your pagelet for multiple actions:	
<pre>%w(hosts/new hosts/edit hosts/process_hostgroup).each do action mgr = Pagelets::Manager.new action mgr.add_pagelet :main_tab_fields, :partial => 'hosts/puppet/main_tab_fields', :priority => 100 end</pre>

Revision 49cfbd45 - 07/12/2016 08:34 AM - Ondřej Pražák

Fixes #15464 - support partials in pagelet keys

Pagelets will be keyed as "`#{controller}/#{partial_name}`". This removes a necessity to register a pagelet multiple times if a partial is reused for different actions.
