Associated revisions

Revision cf37d1f4 - 07/13/2016 08:56 AM - Shlomi Zadok

Fixes #15655 - Improve ptable migration

Update host and hostgroups in migration without running validation. Some plugins failed to run the migration because Host or Hostgroups added validations for fields that did not exist at the time this migration was created.

This change also improves performance of the migration by using the `update_all` method instead of looping over all elements.

History

#1 - 07/12/2016 07:01 AM - Shlomi Zadok

- Project changed from OpenSCAP to Foreman

- Category set to Database

The problem is at the migration itself, as ptable_id is set on the hostgroup (hence an update on hostgroup) This may happen on other plugins that add validation to the hostgroup.

#2 - 07/12/2016 07:04 AM - The Foreman Bot

- Status changed from New to Ready For Testing
- Pull request https://github.com/theforeman/foreman/pull/3639 added

#3 - 07/12/2016 09:31 AM - The Foreman Bot

- Pull request https://github.com/theforeman/foreman_openscap/pull/178 added

#4 - 07/13/2016 09:01 AM - Shlomi Zadok

- Status changed from Ready For Testing to Closed
- % Done changed from 0 to 100

Applied in changeset cf37d1f470c6eb898b65f0355360684abbabde16.

#5 - 07/13/2016 10:03 AM - Dominic Cleal

- Category changed from Database to DB migrations
- translation missing: en.field_release set to 160

#6 - 07/13/2016 10:07 AM - Ohad Levy

- Pull request deleted (https://github.com/theforeman/foreman_openscap/pull/178)

#7 - 07/27/2016 12:06 PM - Ivan Necas

- Related to Refactor #15866: Provide alternative way of migrating data as oposed misuing db:migrate for this purpose added
