Description

The Init-RC Script for RHEL on RHEL6 doesnt work if you are not in the foreman-home.
If you run /etc/init.d/foreman start from outside of the foreman home you get the error

```
configuration /config.ru not found
```

Here is a possible fix for this (maybe someone has a better idea):

```
--- /opt/foreman/foreman/extras/spec/foreman.init    2012-03-28 14:04:35.828489612 +0100
+++ /etc/init.d/foreman 2012-04-10 05:57:11.827524267 +0100
@@ -23,6 +23,7 @@

 start() {
     echo -n $"Starting $prog: "
+    cd $FOREMAN_HOME
     daemon --user ${FOREMAN_USER} /usr/bin/ruby ${FOREMAN_HOME}/script/rails s -p ${FOREMAN_PORT}
 -e ${FOREMAN_ENV} -d > /dev/null
     RETVAL=$?
     if [ $RETVAL = 0 ]
```

- Status changed from New to Closed

I spoke to Jason a few weeks ago about this and it should be resolved. Please re-open the issue if you're still running into problems.
