Fixes #15707 - AWS support for GovCloud

History

- Bugzilla link set to 1356517

#2 - 07/18/2016 03:08 AM - Dominic Cleal

- Status changed from New to Need more information

Is us-gov-west-1 not automatically listed as a region? Current versions of Foreman/fog should accept it.

#3 - 01/09/2017 02:42 AM - Shlomi Zadok

It is supported by Fog & Foreman.

Please note that it is dependent of the user settings.

#4 - 03/06/2017 05:43 PM - Bryan Kearney

Shlomi, do you know what setting the user needs? Downstream says the user can see <https://console.amazonaws-us-gov.com/console/home?region=us-gov-west-1>

- Status changed from Need more information to Resolved

This is indeed supported in latest stable version of Foreman, this has been cloned from bugzilla which is a request for backport which is unlikely to happen due to complexity of the hardcoded code in fog-aws, the only viable choice is to rebase fog/fog-aws downstream (which can be problematic too).

This is still an issue, turns out govcloud region must be set explicitly before we ask for available regions. A simple checkbox in the form will do.
