<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/3662">https://github.com/foreman/foreman/pull/3662</a>	
<b>Description</b>	
<p>The pg gem was pinned in <a href="#">#12219</a> as tests failed on our Jenkins slaves under Ruby 2.2 or higher due to the pg build process which was preferring /usr/lib64/libruby* from the base OS's old Ruby over the RVM Ruby.</p> <p>ruby-devel has been uninstalled on all of our Jenkins slaves now, so pg should be unpinned so we have the latest version with other fixes.</p> <p>The build process bug is still unfixed and may not be corrected unless there's a behaviour change in Ruby's build process, but the workaround to remove ruby-devel when using RVM is straightforward.</p>
