

Foreman - Bug #1580

Limitiation to create only 32 GB VM

04/20/2012 03:41 AM - Kevin Fernandes

Status: Duplicate	
Priority: Normal	
Assignee: Marek Hulán	
Category: VM management	
Target version: 1.6.3	
Difficulty: easy	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description While creating VMs via the Foreman UI. Only VMs till 32GB Memory can be created from the dropdown list. This field should be changed, so that VMs of any Memory size could be created.

Kevin,

Any chance you can give me the URL where this field is? (Feel free to obfuscate your actual server). I don't use provisioning so am not familiar with that particular code.

Thanks,
Brian

#2 - 05/16/2012 04:28 AM - Kevin Fernandes

- File 32GBVM.png added

Hi Brian,

I am attaching a screen shot of the fields where the configuration happens. And the link is the following on that page when i select Provision on "and selecting KVM host".

<http://foreman.domain.local:7000/hosts/new>

Regards,
Kevin

- Description updated

- Target version set to 115

#11 - 07/28/2016 08:31 AM - Marek Hulán

- Target version changed from 115 to 1.6.3

#12 - 08/11/2016 08:50 AM - Marek Hulán

- Status changed from New to Assigned

- Assignee set to Marek Hulán

This limitation is there for libvirt and oVirt CRs. VMware already exposes text field. As part of this I'll create some basement for related tasks, e.g. same thing should be applied to CPU count.

#13 - 08/11/2016 09:34 AM - Marek Hulán

- Status changed from Assigned to Duplicate

actually all of what's here is already part of [#2314](#) so I'll use that one
