Description

Root password on host doesn't seem inherited by hostgroup / nested hostgroup.
Host root password faillback on default foreman general root password.

fixes #1586 -Root password inheritance doesn't seem to work properly

Revision f4279fea - 06/27/2012 03:18 AM - Ohad Levy

refs #1586 - no need to copy hostgroup root pw

the idea here is not to copy the pw from the hostgroup, as if
you would like to change the hostgroup password, it would change it
to all systems which are using the hostgroup pw (and did not override it manually).

Revision 66a9a696 - 06/27/2012 09:07 AM - Ohad Levy

refs #1586 - ensures that hostgroup hierarchy order is processed correctly
