Katello - Bug #15906

Do not re-run upgrade rake tasks on --upgrade

07/29/2016 10:32 AM - Ivan Necas

Status:	New		
Priority:	High		
Assignee:			
Category:	Upgrades		
Target version:	Katello Backlog		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1357472	**Red Hat JIRA:**	
Pull request:			

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1357472
Description of problem:
Upgrading along 3.x stream should not run remove_gutterball and elasticsearch_message. These steps are irrelevant to upgrading from 2.x

How reproducible:
always

Steps to Reproduce:
1. # yum upgrade # but not from katello 2.x
2. # satellite-installer -S satellite --upgrade
...
Upgrade Step: elasticsearch_message...
package elasticsearch is not installed
...
Upgrade Step: remove_gutterball...
package gutterball is not installed
...

Actual results:
not appropriate upgrade steps are run needlessly.

Expected results:
only relevant steps are run when upgrading
