Description When adding/editing a compute resource, "Test connection" button doesn't display any message if connection is successful. We should display a success message.

Revision e6d9c43c - 05/04/2012 12:36 PM - Greg Blomquist

fixes #1595: show success on test connection

Added css class "btn_success" to the test connection button when the connection is successful.

This still leaves behind a problem with ec2 (and probably rhev and vmware) where testing the connection resets the selected region (or, datacenter for rhev and vmware).

I'll file a separate issue in redmine for that.
