Description

It would be usefull to be able to restrict some compute resource to users.

Associated revisions

Revision e170c321 - 05/30/2012 08:47 AM - Olivier Favre

fixes #1597 - Restrict compute resources access by user

And add some rights to give non admin users so they can perform some normal actions on the hosts they own.

unit/domain_parameter_test.rb self-broke... added a tiny fix.
Removing compute_resources/vms nesting, it is such a nightmare for functional tests.
