Revision 8685d606 - 08/23/2016 10:32 AM - Tomer Brisker

Fixes #16044 - Load dashboard widgets via ajax

This speeds up dashboard loading as widgets are loaded in the background and do not block rendering, as well as allow the dashboard to load correctly even if some of the widgets are broken.

History

#1 - 08/10/2016 06:52 AM - Daniel Lobato Garcia

- Target version set to 117

Cloned this to Foreman because we should handle dashboard failures from plugin gracefully (currently they break the entire page if just one widget fails)
