puppet agent fails

08/16/2016 04:53 PM - Paul Chineye

Status: Resolved	
Priority: Normal	
Assignee:	
Category:	
Target version:	
Triaged:	Found in Releases:
Fixed in Releases:	

Description

1. puppet agent --test

Warning: Unable to fetch my node definition, but the agent run will continue:

Warning: SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Info: Retrieving pluginfacts

Error: /File[/opt/puppetlabs/puppet/cache/facts.d]: Failed to generate additional resources using 'eval_generate': SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Error: /File[/opt/puppetlabs/puppet/cache/facts.d]: Could not evaluate: Could not retrieve file metadata for puppet:///pluginfacts: SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Info: Retrieving plugin

Error: /File[/opt/puppetlabs/puppet/cache/lib]: Failed to generate additional resources using 'eval_generate': SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Error: /File[/opt/puppetlabs/puppet/cache/lib]: Could not evaluate: Could not retrieve file metadata for puppet:///plugins: SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Error: Could not retrieve catalog from remote server: SSL_connect SYSCALL returned=5 errno=0 state=unknown state

Warning: Not using cache on failed catalog

Error: Could not retrieve catalog; skipping run

Error: Could not send report: SSL_connect SYSCALL returned=5 errno=0 state=unknown state

=====

1. puppet --version

4.5.3

1. puppetserver --version

puppetserver version: 2.5.0
