#### Description

Transifex is failing to update the POT file from the Foreman 1.12-stable branch with the following error:

```
The URL we used to update the source file from was https://github.com/foreman/foreman/raw/1.12-stable/locale/foreman.pot.
```

The exact error we encountered was:

```
'ascii' codec can't encode character u'\xa9' in position 203700: ordinal not in range(128)
```

I think the non-ASCII character it's having a problem with is the copyright symbol in the string `Version %{version} © 2009-%{year} Paul Kelly and %{author}`, which has the Unicode byte sequence `c2 a9`.
