<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1331550">https://bugzilla.redhat.com/show_bug.cgi?id=1331550</a>	
Description of problem:	
Under "Infrastructure" -> "Compute resources" -> "New compute resource", before I add any details about my compute resource, if I click 'test connection' I get a green box in the top right hand corner saying "Success: Test connection was successful".	
Version-Release number of selected component (if applicable): Sat 6.2.0 Beta -	
Steps to Reproduce:	
1. Log into Sat 6	
2. Select "Infrastructure" -> "Compute resources" -> "New compute resource"	
3. click 'Test connection' for Libvirt or Rackspace, 'Load Datacenters' for VMware	
4. Observe success message.	
Actual results:	
False success message on screen.	
Expected results:	
Error message, or nothing at all.

##### Revision f68a467f - 09/01/2016 07:35 AM - Tomáš Strachota

Fixes #16164 - False positives on testing CR connection

Prevents from showing success message when there's a validation error in the returned form and adds error handling for the test connection ajax call.
