<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/3757">https://github.com/foreman/foreman/pull/3757</a>	
<b>Description</b>	
<p>Compute resource factories currently call skip_callback on compute resources <i>classes</i> when constructing <i>instances</i> to disable contact with the CR, key generation, e.g.</p> <pre>after(:build) {  host  host.class.skip_callback(:create, :after, :setup_key_pair) }</pre> <p>On Rails 5.0, calling skip_callback for a non-existent callback now raises an error by default, so when this is called twice on the same class, it will fail the second time as the callback's been deleted.</p> <p>To prevent modifying the class itself, the methods should be stubbed like other factories so that the callbacks are run, but have no effect.</p>
