

Foreman - Refactor #16243

Remove required `options` argument to Host::Managed.new

08/23/2016 07:56 AM - Dominic Cleal

Pull request:	https://github.com/foreman/foreman/pull/3768	
Description		
<p>The second "options" hash argument to a model .new method no longer exists on Rails 5 (due to no protected_attrs support?), so Host::Managed#initialize should handle it being present or not.</p> <p>The hash isn't used directly by initialize, only Rails. Host::Base already does this using a splat operator.</p> <pre>ArgumentError: wrong number of arguments (given 2, expected 0..1) activerecord (5.0.0) lib/active_record/core.rb:312:in `initialize' app/models/host/base.rb:82:in `initialize' actionpack (5.0.0) lib/action_dispatch/routing/url_for.rb:106:in `initialize' app/models/host/managed.rb:47:in `initialize' activerecord (5.0.0) lib/active_record/inheritance.rb:65:in `new' activerecord (5.0.0) lib/active_record/inheritance.rb:65:in `new' app/models/concerns/foreman/sti.rb:22:in `new_with_cast' app/models/host.rb:15:in `method_missing' factory_girl (4.7.0) lib/factory_girl/decorator/new_constructor.rb:9:in `new'</pre>

Revision 8e780e97 - 08/23/2016 09:34 AM - Dominic Cleal

fixes #16243 - make Host::Managed.new's options arg optional

The options argument no longer exists on Rails 5 as it was part of the support for protected_attrs. The argument list to .new should be handled more defensively, like Host::Base.
