Installer - Bug #16319

Install foreman-proxy gives errror on foreman-proxy user with no puppet installed.

Description

Installed foreman 1.12.2 with foreman and foreman-cli (no puppet from foreman-installer).
Now adding the foreman-proxy to it, gives the following error on foreman-proxy-user

```
foreman-installer --enable-foreman-proxy --foreman-user-groups EMPTY_ARRAY --foreman-configure-epe
l-repo false --foreman-configure-scl-repo false --foreman-proxy-custom-repo true
 Could not set groups on user[foreman-proxy]: Execution of '/usr/sbin/usermod -G puppet foreman-pr
oxy' returned 6: usermod: group 'puppet' does not exist
 /Stage[main]/Foreman_proxy::Config/User[foreman-proxy]/groups: change from  to puppet failed: Cou
ld not set groups on user[foreman-proxy]: Execution of '/usr/sbin/usermod -G puppet foreman-proxy'
 returned 6: usermod: group 'puppet' does not exist
```

Specifying one of these options does not help;

```
--foreman-proxy-puppet-group EMPTY_ARRAY
--foreman-proxy-puppet-group EMPTY_HASH
--foreman-proxy-puppet-group UNDEF
--foreman-proxy-puppet-group=UNDEF
```
