Pull request:			

Description

It would be nice to be able to specify a start page for a given role.

Example: /reports?search=eventful+%3D+true

History

#1 - 08/02/2016 03:29 AM - Marek Hulán

- Description updated

- Status changed from New to Need more information

- Assignee deleted (Ohad Levy)

Could you please provide more information how this would work? User can have more than one role so which would win? Maybe it would be better to have this configurable per user? User could mark some bookmark to which he'd be redirected after login.
