Bugzilla link: 726570	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/3790	
Description Customer would like a means of adding text onto the login page. The text could be based off of: 1) Many foreman instances, would like to denote one from another 2) Message of the day type logic	
Related issues: Has duplicate Foreman - Feature #14029: Add a setting for login screen message Duplicate 03/02/2016	

Associated revisions

Revision 17e1fe93 - 09/01/2016 03:06 AM - Bryan Kearney

Fixes #16371 - Add support for login page dynamic text

Adds a new general setting called login_text. If this is set to a value, then the text is shown under the product and version information on the login page.

History

#1 - 08/29/2016 03:55 PM - Bryan Kearney

- Bugzilla link set to 726570

#2 - 08/29/2016 04:01 PM - The Foreman Bot

- Status changed from New to Ready For Testing
- Assignee set to Bryan Kearney
- Pull request <https://github.com/foreman/foreman/pull/3790> added

#3 - 09/01/2016 02:59 AM - Lukas Zapletal

- Subject changed from User defined text on the login page to User defined text on the login page footer

Just to be clear - this is not the login banner, we would like to implement that in the future as well.

#4 - 09/01/2016 04:02 AM - Anonymous

- Status changed from Ready For Testing to Closed
- % Done changed from 0 to 100

Applied in changeset [17e1fe93bfe4775da3be8511bb3f539521144b07](#).

#5 - 09/01/2016 04:09 AM - Dominic Cleal

- translation missing: en.field_release set to 160
