Description
Currently, the randomization link adds a line to the host form, causing the layout to break. This could be fixed by moving the icon into the input field.

Revision 3b6f9323 - 09/01/2016 04:28 AM - Tomer Brisker

Fixes #16379 - Improve layout of hostname randomize button

This moves the button from being a line of its own to a button in the input.
Also changed the form helper to streamline adding button to inputs and got rid of a useless helper.
