

Foreman - Bug #16461

Role filter is not overriding from CLI and API

09/07/2016 05:07 AM - Jitendra Yejare

Status: Closed	
Priority: Normal	
Assignee: Marek Hulán	
Category: Users, Roles and Permissions	
Target version: 1.13.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1373840	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/3822	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1373840	
Description of problem: According to new feature Canned Role:Org Admin, The user should be able to override the taxonomies of role filter over role taxonomies. The behavior is expected from UI, but not from hammer CLI and API. I am unable to override the taxonomies of role filter. The CLI says it does overridden the role filter and API says 200 OK result but the override is not actually happening. In short the results from API and CLI are false positive.	
Version-Release number of selected component (if applicable): foreman-1.13.0-0.develop.201609051301git713be41.el7.noarch	
How reproducible: Always	
Steps to Reproduce: 1. Create a role with taxonomies. 2. Create/(Update existing) filter in above role with overridden taxonomies from CLI/API. 3. Verify if role filter is created/Updated with taxonomies.	
Actual results: Role filter is not overriding from CLI and API.	
Expected results: The role filter should be able to override from CLI and API.

#2 - 09/07/2016 05:09 AM - Marek Hulán

- Related to Feature #7806: As a user, I would like roles to associate roles with organizations. added

#3 - 09/07/2016 05:11 AM - Marek Hulán

- Target version set to 1.5.3

- translation missing: en.field_release set to 160

The override flag should be exposed in API, since the feature was introduced in 1.13 I'm aligning this to the same version.

#4 - 09/07/2016 07:58 AM - The Foreman Bot
