<b>Pull request:</b> <a href="https://github.com/theforeman/foreman_openscap/pull/282">https://github.com/theforeman/foreman_openscap/pull/282</a>	
<b>Description</b>	
How reproducible: Every time	
Steps to Reproduce: 1. hammer hostgroup create --help   grep scap (no option for scap) 2. Via Foreman/Katello/Satellite API docs, no reference to set openscap capsule for hostgroup	
Actual results: None	
Expected results: Should be able to configure the openscap capsule for a hostgroup via hammer cli or API requests	
Additional info:  Reproducible with nightlies too, we need to extend APIPIE paramgroup.
