Pull request:	
Description	
<p>Currently you have to use a separate reports processor for Foreman, since Foreman apparently expects the YAML report data in application/x-www-form-urlencoded (the report processor template at https://raw.githubusercontent.com/theforeman/puppet-foreman/master/templates/foreman-report.rb.erb calls set_form_data). Puppet reference docs also seem to suggest that Puppet sends the data in urlencoded format, but that is not the case: see https://projects.puppetlabs.com/issues/14723</p> <p>If Foreman accepted YAML-formatted data as the request body, it would work with the Puppet http report processor and separate processors would no longer be needed.</p>

Revision baa3d6f9 - 06/07/2012 04:42 AM - Ohad Levy

fixes #1657 - Support Puppet http reports processor

this patch allow usage of puppet http report processor.
in order to use it simply update your puppet.conf to have the following:

```
reports = http
reporturl = http://foreman/reports
```

NOTE: its not possible to use ssl URLs with the current report processor (AFAIK)

History

#1 - 06/07/2012 04:40 AM - Ohad Levy

- Target version set to 1.0

agreed - however note that puppet does not support SSL for a transport.

#2 - 06/07/2012 05:17 AM - Lauri Tirkkonen

It will in Telly -- see <http://projects.puppetlabs.com/issues/8465>

#3 - 06/07/2012 06:08 AM - Ohad Levy
