

## Foreman - Bug #1673

### Foreman doesn't work with ruby\_parser 2.0.6

<b>Description</b>	
Trying to run Foreman when ruby_parser 2.0.6 is installed fails with the following error:	
<pre>/usr/share/foreman/app/models/environment.rb:1: superclass mismatch for class Environment (TypeError)</pre>	
This is caused by this versions ruby_parser defining Environment constant itself. With version 2.3.1 this is not the case.	
It means Foreman is dependent on this or higher version being installed and therefore it should be added to Gemfile (patch attached), and also into RPMS and DEBS explicitly.

##### Revision 80419840 - 06/08/2012 03:38 AM - Ivan Necas

fixes #1673 - Foreman doesn't work with ruby\_parser 2.0.6

Explicitly stating the version of ruby\_parser that works with Foreman.  
Otherwise you might get:

```
superclass mismatch for class Environment (TypeError)
```
