

Foreman - Bug #1678

nested hostgroups and hostgroup/environment template association.

06/13/2012 04:43 AM - Steve Traylen

Status: Closed	
Priority: Normal	
Assignee: Ohad Levy	
Category: Web Interface

Description	
Using the nested hostgroup structure 'base/this/that' then the drop down box of hostgroups on the template hostgroup/environment association page shows only the tips rather than the structured layout. i.e its	
base this that	
rather that it probably should be	
base base/this base/this/that	
foreman version - develop branch , today.
