Revision cad1c72d - 12/02/2016 03:26 AM - Jan-Otto Kröpke

Fixes #16942 - Added param dhcp\_pxeserver

Closes GH-312

History

#1 - 10/14/2016 10:01 AM - Dominic Cleal

- Category set to Foreman modules
- translation missing: en.field\_release deleted (190)

The dhcp module already exposes this parameter, and it can already be partly overridden (to interfaces of the DHCP server installed with foreman\_proxy) by changing the foreman-proxy-dhcp-interface setting.

However when using Foreman, the :tftp\_servername smart proxy setting is used to determine the next-server value for DHCP reservations created by Foreman, overriding this setting.

Please don't set the (target) release field.

#2 - 10/14/2016 11:24 AM - Jan-Otto Kröpke

Hi,

DHCP reservations created by Foreman, overriding this setting.

I want to use Foreman discover for new bare metal. The IP that I want to configure is not an Interface IP of the DHCP server.

Best Regards,  
Jan-Otto Kröpke
