Description

In my tests with Chrome it works fine. In IE it's frozen and I can't edit a thing.

Not sure if it's only me, but it is still not working here. (IE 9)
Is it possible for someone else to confirm this ?

Btw, When I put IE in compatibility mode (IE7 or IE8), it shows a different result (as you would expect from the code) but it's also broken as it shows a text box with the whole template code in a single line.
