Description	
<p>Hi Team,</p> <p>I would like to explain my senario,</p> <p>I do not have the dhcp in our environment.</p> <p>I am trying to install the VM with the autoyast, with the boot image available at : nfs://10.4.198.192/kick/SLES11</p> <p>and i would like to accomidate the boot options as below during the VM boot from the operation system configured on foreman.</p> <p>boot options are:</p> <pre>install=nfs://10.4.198.192/kick/SLES11 hostip=10.4.40.227 netdevice=eth0 netmask=255.255.255.0 gateway=10.4.40.1 autoyast=nfs://kick/SP3/autoyast.xml</pre> <p>I am attaching the screenshot, this method is successfull when i tried manually without foreman.. i would like to know how this could be accomidated by foreman.</p> <p>regard, Vikram</p>	

History

#1 - 11/09/2016 03:23 AM - Anonymous

- Project changed from *Discovery* to *Foreman*
- Category changed from *Image* to *Unattended installations*
- Status changed from *New* to *Closed*
- Priority changed from *Urgent* to *Normal*
- Assignee changed from *Aleksandr Orlov* to *Anonymous*

NFS is not supported. Also, support for SUSE based distributions is only best effort from the community.
