SELinux - Bug #17324

Fedora 24 build fails with "Interface docker.if not present"

Pull request:	https://github.com/theforeman/foreman-selinux/pull/64		

Description

Builds of foreman-selinux are failing on Fedora 24 with:

```
+ make clean all NAME=targeted DISTRO=fedora24 VERSION=1.14.0 INSTPREFIX=/builddir/build/BUILDROOT
/foreman-selinux-1.14.0-0.develop.201611140304git2f2a5c3.fc24.noarch
Makefile:18: *** *** Interface docker.if not present, cannot continue ***.  Stop.
```

I think this is since the following update hit updates-testing:
https://bodhi.fedoraproject.org/updates/?builds=selinux-policy-3.13.1-191.20.fc24 (vs .19.fc24). docker.if has been renamed to container.if as part of the changes described at docker-selinux changed to container-selinux

Associated revisions

Revision d21fad51 - 11/24/2016 06:13 AM - Dominic Cleal

fixes #17324 - set has_docker when container.if is found
