

Katello - Bug #17389

Host created via hammer does not show the CV & Lifecycle Environment inherited from hostgroup

11/17/2016 03:38 PM - Andrew Kofink

Status: Resolved	
Priority: High	
Assignee: Andrew Kofink	
Category:	
Target version: Katello Recycle Bin	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/Katello/hammer-cli-katello/pull/466	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1391656	
Description of problem:	
If you create a host via hammer and inherit the CV and lifecycle environment from the hostgroup, then when you edit the host in the UI, the CV and lifecycle environments are blank.	
Creating a host with the same settings via the GUI correctly pulls the CV and lifecycle environment	
Version-Release number of selected component (if applicable):	
Satellite 6.2.2	
How reproducible:	
100%	
Steps to Reproduce:	
<ol style="list-style-type: none">1. Create hostgroup, set lifecycle environment & CV2. Create host via hammer setting hostgroup to the hostgroup created in #13.	
Actual results:	
Edit the host in the GUI, and the CV & Lifecycle environments will be blank	
Expected results:	
Edit the host in the GUI, and the CV & Lifecycle environments will be populated with the values from the hostgroup it is a part of.	
Additional info:	
A host created using the GUI will have the CV and Lifecycle Env correctly populated.
