Sorry, I can't help in Chinese, only English. Others may be able to on foreman-users (https://theforeman.org/support.html).

Which "puppet" or "puppet-agent" package do you have installed?

Which "puppet" or "puppet-agent" package do you have installed?

[root@node4 ~]# rpm -qa|grep puppet puppetlabs-release-pc1-1.1.0-2.el6.noarch puppet-agent-1.8.1-1.el6.x86_64 puppetlabs-release-22.0-2.noarch

it all installed

#3 - 12/01/2016 06:53 AM - Dominic Cleal

The package you have should have the Hiera library. It's most likely that you have another Puppet installation interfering with it, ensure there are no Puppet gems installed and that the RUBYLIB environment variable is not set. Consider trying "yum reinstall puppet-agent", or on a clean installation.
