

Foreman - Bug #1762

bundler test.rb should require specific version of shoulda

07/17/2012 04:12 PM - Corey Osman

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Corey Osman	
Category:	Tests	
Target version:	1.0	
Difficulty:		
Triaged:		
Bugzilla link:		
Pull request:		
Description		
The shoulda version 3.1.0 gem is broken which is breaking my foreman environment as well. We should add a specific version to the bundler.d/test.rb file so we wont' break in the future
