Description

Use force when destroying VMs

```
There's no point in waiting several seconds for any guest utils to shut
    down the VM when we want to get rid of it as quickly as possible.  This
    also works around cases like
```

```
2016-12-12T10:33:22 [app] [W] Failed to destroy a compute foo (VMware) instance bar.example.com: T
oolsUnavailable: Der Vorgang kann nicht abgeschlossen werden, weil VMware Tools auf dieser virtuel
len Maschine nicht ausgeführt wird.

Revision 6816de9b - 12/21/2016 03:36 AM - Guido Günther

Fixes #17641 - Use force when destroying VMs

There's no point in waiting several seconds for any guest utils to
shut down the VM when we want to get rid of it as quickly as
possible.

This also works around cases like where VMWare misdetects
the openvm-tools status.

Revision 07508ddc - 01/30/2017 11:01 AM - Guido Günther

Fixes #17641 - Use force when destroying VMs

There's no point in waiting several seconds for any guest utils to
shut down the VM when we want to get rid of it as quickly as
possible.

This also works around cases like where VMWare misdetects
the openvm-tools status.
