Pull request:	
Description	
<p>The output format in puppetca changed in 2.7.18. Hostnames are surrounded by "quotes" now. After upgrading from 2.7.17 I get this error clicking on certificates for a puppetca proxy:</p> <pre>smart_proxy_puppetca_url failed to generate from {:action=>"update", :id=>#<SmartProxies::PuppetCA:0x7f12d97a4520 @fingerprint="78:E4:5B:C1:03:BD:3E:B7:97:0F:17:53:7E:FC:73:7F", @smart_proxy_id=1, @expires_at=nil, @name="\"virtualxp-63912\""}, expected: {:action=>"update", :controller=>"SmartProxies::Puppetca", :smart_proxy_id=>"1-puppetca"}, diff: {:id=>#<SmartProxies::PuppetCA:0x7f12d97a4520 @fingerprint="78:E4:5B:C1:03:BD:3E:B7:97:0F:17:53:7E:FC:73:7F", @smart_proxy_id=1, @expires_at=nil, @name="\"virtualxp-63912\""}, @valid_from=nil, @state="valid">, :smart_proxy_id=>"1-puppetca"}</pre> <p>full trace:</p> <pre>ActionView::TemplateError smart_proxy_puppetca_url failed to generate from {:action=>"update", :id=>#, :controller=>"SmartProxies::Puppetca", :smart_proxy_id=>"1-puppetca"}, expected: {:action=>"update", :controller=>"SmartProxies::Puppetca"}, diff: {:id=>#, :smart_proxy_id=>"1-puppetca"} app/helpers/application_helper.rb:105:in `display_link_if_authorized' app/views/smart_proxies/puppetca/index.html.erb:23 app/views/smart_proxies/puppetca/index.html.erb:14:in `each' app/views/smart_proxies/puppetca/index.html.erb:14</pre>

- Status changed from New to Duplicate

- Target version set to 1.0

#2 - 07/19/2012 11:10 AM - Adam Denning

I tried the patch in Bug [#1759](#), and still getting the error above. This is in .4.2.

This seems to be a slightly different issue than Bug [#1759](#) as I'm seeing the error when clicking certificates, not when trying to sign a certificate (I can't get that far).

#3 - 07/19/2012 12:01 PM - Ohad Levy

I cant reproduce this issue on my setup, are you sure you applied it and restarted your proxy?

#4 - 07/19/2012 12:09 PM - Adam Denning

My bad. I had restarted foreman-proxy, but guess I had a cache issue or something going on as it seems to be working fine now. Thanks Ohad.
