<b>Pull request:</b>	
<b>Description</b>	
Hi,	
One particular view seems to have vanished with update from 0.5 to 1.	
The following URLs work and return JSON.	
<ul style="list-style-type: none"><li>• <a href="https://version0.4.cern.ch/usergroups?format=json">https://version0.4.cern.ch/usergroups?format=json</a></li><li>• <a href="https://version0.4.cern.ch/usergroups">https://version0.4.cern.ch/usergroups</a></li><li>• <a href="https://version1.cern.ch/usergroups">https://version1.cern.ch/usergroups</a></li></ul>	
while	
<ul style="list-style-type: none"><li>• <a href="https://version1.cern.ch/usergroups?format=json">https://version1.cern.ch/usergroups?format=json</a></li></ul>	
fails with 'We're sorry, but something went wrong.'	
Logs contains:	
<pre>Started POST "/reports/create?format=yml" for 128.142.33.213 at Mon Jul 30 11:34:09 +0200 2012 Processing by ReportsController#create as YML Parameters: {"report"=&gt;"[FILTERED]"} processing report for foreman01.cern.ch</pre>
