

Foreman - Bug #18040

Certificates with OU= give an error when listing smart-proxy cert list.

01/12/2017 03:42 AM - Stefan Goethals

Status: Closed	
Priority: Normal	
Assignee: Daniel Lobato Garcia	
Category: PuppetCA	
Target version: 1.14.1	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.13.3
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/4185	
Description	
When a certificate containing an OU (possibly any other field than CN) is signed. An error occurs when viewing cert list page. Possibly, the id of the certificate is not parsed correctly and ends up containing a '/' character which is not allowed. The certificate could be parsed in the manner puppet does it https://github.com/puppetlabs/puppet/blob/master/lib/puppet/util/ssl.rb#L44 to avoid this issue.

Revision 73633f3d - 01/31/2017 03:10 AM - Daniel Lobato Garcia

Fixes #18040 - URL escape PuppetCA CN on proxy view

If the CN contains characters that cannot be displayed in an URL, like 'mcollective/OL=mcollective', the puppetca list will not be able to render.

The reason is that Rails cannot generate an URL for such CNs, so we need to convert it into URL-friendly style.
