<b>Description</b>	
<p>In the puppet-puppet module (<i>manifests/server/config.pp:6</i>) the <i>foreman::puppetmaster</i> class is included. The <i>foreman::puppetmaster</i> class and the <i>foreman::config::enc</i> class that is included (and the used templates) are therefore only able to use the default values hardcoded in <i>foreman::params</i>, not the parameters given to the <i>foreman</i> class. This leads to problems when using the foreman class e.g. with parameter <i>foreman_url</i>: The ENC and reporting config files will contain a different Foreman URL than given to the <i>foreman</i> class.</p> <p>I suggest to include the <i>foreman::puppetmaster</i> class in <i>foreman::config</i> with a notify =&gt; Class['puppet::server::service'] and not use <i>foreman::params::</i> values but <i>foreman::</i> parameters instead.</p>	

#### History

##### #1 - 08/07/2012 06:40 AM - Ohad Levy

great, would you mind sending a patch / github pull request?

thanks!

##### #2 - 08/15/2012 09:36 AM - Peter Bauer

will do ASAP

##### #3 - 12/24/2012 02:45 AM - Peter Bauer

Obsolete due to commit:ed7c8f63dfa3351d65956ab6cf4569e17586f91f

##### #4 - 09/20/2013 12:43 PM - Ewoud Kohl van Wijngaarden

- Description updated

- Status changed from New to Resolved

- % Done changed from 0 to 100

Since this has been fixed a long time ago, let's close this :).
