Foreman - Feature #1820

Authenticate API calls via REMOTE_USER too

Description
It'd be cool to also take into account REMOTE_USER when authenticating API requests. Maybe it's a good a idea to make it optional, having a setting to switch it on/off.

Revision 7adf0ee3 - 08/13/2012 09:58 AM - Nacho Barrientos

fixes #1820 - Authenticate API calls via REMOTE_USER

This patch allows API requests authentication via REMOTE_USER
only if authorize_login_delegation and authorize_login_delegation_api
are enabled.
