<b>Description</b>	
I don't see the 1.1 tarball on the download page <a href="http://theforeman.org/projects/foreman/files">http://theforeman.org/projects/foreman/files</a> . Is this available, or purposely unavailable.	
Thanks!

Foreman 1.0 is not available yet. Foreman 1.0.1 is available, though, but it seems like we haven't historically put patch version tarballs on that page.
