

Foreman - Bug #184

Query 'state' doesn't work

03/22/2010 02:01 PM - Dis Connect

Status: Closed	
Priority: Normal	
Assignee: Ohad Levy	
Category: Search	
Target version: 0.1-5	
Difficulty:	Fixed in Releases:
Triaged: No	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description According to the web UI: Out Of Sync Hosts 23 Hosts in Error State 4 Total hosts 204 (For the queries below, the web ui shows 198 hosts in 'base', 15 in 'memcached') The query interface isn't reflecting that: Memcached runs every 6 ours, so this test is ok: irb(main):049:0> gethosts({ 'class' => 'memcached' }).length NoMethodError: undefined method `length' for nil:NilClass from (irb):49 from :0 This test is not though, should list 15 hosts: irb(main):050:0> gethosts({ 'class' => 'memcached', 'state' => 'all' }).length NoMethodError: undefined method `length' for nil:NilClass from (irb):50 from :0 Should list 175 hosts: irb(main):052:0> gethosts({ 'class' => 'base' }).length => 175 Should list 198 hosts: irb(main):051:0> gethosts({ 'class' => 'base', 'state' => 'all' }).length => 175 Should list 204 hosts: irb(main):053:0> gethosts({ 'state' => 'all' }).length NoMethodError: undefined method `length' for nil:NilClass from (irb):53 from :0	
Related issues: Is duplicate of Foreman - Refactor #191: Query should return all hosts, not j... Closed	

History

#1 - 03/22/2010 03:03 PM - Ohad Levy

can you add a simple fact, just to be sure that the lack of fact usage doesnt break something?

#2 - 03/23/2010 01:46 PM - Dis Connect

It works with the addition of a fact.
