Description	
Hi,	
I'm on commit 938e78d647f943f0987c992c2f924dd81cba55b3.	
<pre>nacho@endnd: (develop) [0] ~/dev/foreman/app/views \$ grep help_path compute_resources/index.html.erb <% title_actions display_link_if_authorized("New Compute Resource", hash_for_new_compute_resource_ path), help_path %> nacho@endnd: (develop) [0] ~/dev/foreman/app/views \$ ls compute_resources/welcome* ls: cannot access compute_resources/welcome*: No such file or directory</pre>	
(the obvious alternative is to write a welcome page ;)	
Cheers.
