Revision 2aabb456 - 09/02/2012 06:25 AM - Ohad Levy

fixes #1842 - Getting hostgroups via the API takes an eternity.

This changes a bit the API resonspe as well, as it makes little sense in a rest
context to return full nested objects (when the child objects can be very large).

therefore, instead of environments and puppetclasses (and eventually smart vars)
the environment and classes are now reference by id.

History

#1 - 09/02/2012 10:01 AM - Ohad Levy

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset 2aabb4567368da4f64912ba170e1ae005812061c.

#2 - 09/02/2012 10:20 AM - Ohad Levy

- Assignee set to Ohad Levy

- Target version set to 1.1
