

Foreman - Bug #18431

Provide support for Notification actions

02/08/2017 04:13 PM - Daniel Lobato Garcia

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: Web Interface	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>The notifications drawer don't have any support for adding links, or actions. Ideally we should be providing links and buttons for actions that could resolve the notification if it's an error, etcetera..</p> <p>At a bare minimum, just links would serve us well, right now the link would have to go in the JSX response and we would have to mark the entire message as html safe.</p>
