

Foreman - Bug #1847

The "all puppetclasses" page includes "main" and "Settings" in the list although those are not classes included on the host.

fixes #1847 Ensure main and Settings aren't shown on the puppetclasses page linked to from the host page

History

#1 - 09/03/2012 11:37 PM - Sam Kottler

- Subject changed from The "all puppetclasses" page includes "main" and "Settings" in the list although those are not classes include on the host. to The "all puppetclasses" page includes "main" and "Settings" in the list although those are not classes included on the host.

#2 - 09/12/2012 01:46 AM - Sam Kottler

- Target version set to 1.1

Here is the issue:

```
+-----+-----+-----+-----+-----+-----+-----+-----+-----+-----+
+-----+
| id | title   | restype | host_id | source_file_id | exported | line | updated_at           | created_at           |
+-----+-----+-----+-----+-----+-----+-----+-----+-----+-----+
+-----+
|  1 | Settings | Class   |      1 |                |         0 | NULL | 2012-09-12 01:21:04 | 2012-09-12 01:21:04 |
|  2 | main     | Stage   |      1 |                |         0 | NULL | 2012-09-12 01:23:18 | 2012-09-12 01:23:18 |
|  3 | main     | Class   |      1 |                |         0 | NULL | 2012-09-12 01:23:18 | 2012-09-12 01:23:18 |
+-----+-----+-----+-----+-----+-----+-----+-----+-----+-----+
+-----+
```

The filtering of the classes is done with the restype column in the host model. Therefore, all the rows where the type is set to "Class" will be displayed for that host. Not sure where the values get set, but I assume it's during host creation. I will fix this issue later, but definitely want to get the fix into 1.1.
