Description	
Scenario:	
<ul style="list-style-type: none">• Edit Host, click on "Puppet Classes" tab• Add classes and sub-classes from the "Available Classes" to the "Included Classes"• Save and get back to that window• Click on the minus sign near a manually added sub-class under the "Included Classes"	
Now look for the removed sub-class in the "Available Classes" list - the sub-class does not appear under the its expanded class name.

Hello,

Do you still have the problem? I can't reproduce it.
