

Foreman - Bug #1863

db:convert:prod2dev fails on the roles and settings tables

09/14/2012 11:08 AM - Greg Sutcliffe

Description	
Converting MySQL to Sqlite3 on a foreman 1.0.1 box, I get:	
Mysql::Error: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near "roles" LIMIT 10000 OFFSET 0' at line 1: SELECT `roles`.* FROM "roles" LIMIT 10000 OFFSET 0	
If you skip roles in lib/tasks/convert.rb then you get the same error for settings. I did ensure the schemas were consistent with:	
<ol style="list-style-type: none">1. bundle exec rake db:migrate RAILS_ENV=production2. bundle exec rake db:drop RAILS_ENV=development3. bundle exec rake db:migrate RAILS_ENV=development

- Status changed from New to Closed

Thanks Benjamin, I'll close this for now, we can re-open if it resurfaces.
