<b>Description</b> Spaces break the query interface (fixed with Ohad's patch, below) but dash is still reserved: gethosts({"fact"=>{"productname"=>"Not Specified"}}) - returns a host count gethosts({"fact"=>{"ps"=>"ps -ef"}}) - returns a 500 error, generates a url like "http://puppet:3000/hosts/query?fact[]=ps-ps%20-ef&&format=yml"  Even with fixed regex there is still no way to query for fact "foo-bar", esp if there is also a fact "foo".

##### #3 - 03/25/2010 02:28 PM - Dis Connect

Looks good with my testcase:  
irb(main):003:0> gethosts({"fact"=>{"ps"=>"ps -ef"}}).length  
=> 183

Hopefully nobody uses ~~separator~~ anywhere tho :)
