

Foreman - Bug #1878

Default kickstart template has double quotes in the wrong place - causes kernel panic

10/02/2012 04:53 AM - Rytis Sileika

Status: Closed

Description	
This is what I had in my default ks template:	
<pre>bootloader --location=mbr --append="nofb quiet splash=quiet --md5pass=<%= root_pass %>"</pre>	
This generates illegal kernel boot options that cause kernel panic during the boot.	
The line should be:	
<pre>bootloader --location=mbr --append="nofb quiet splash=quiet" --md5pass=<%= root_pass %></pre>	
Patch:	
<pre>--- a/app/views/unattended/kickstart.rhtml +++ b/app/views/unattended/kickstart.rhtml @@ -8,9 +8,9 @@ rootpw --iscrypted <%= root_pass %> firewall --service=ssh authconfig --useshadow --enablemd5 timezone UTC +bootloader --location=mbr --append="nofb quiet splash=quiet" --md5pass=<%= root_pass %> -bootloader --location=mbr --append="nofb quiet splash=quiet --md5pass=<%= root_pass %>" <% if @dynamic -%> %include /tmp/diskpart.cfg <% else -%> <%= @host.diskLayout %></pre>
